# 5-1-1-Day Programmable Thermostat

EASY PROGRAMMING FOR THE WEEK AND WEEKENDS

**RTH7400D**  
Patents Pending

## KEY FEATURES

- 5-1-1-day menu-driven programming
- Separate programming for weekdays, Saturday and Sunday — 4 periods per day
- Universal application — works with conventional and heat pump systems up to 2H/2C; it's one thermostat for nearly every application
- Large, backlit display shows room temperature, set temperature and current time all at once
- Maximum comfort — Smart Response® technology learns the amount of time a system needs to reach a desired temperature and adjusts accordingly
- Program is retained in memory in the event of a power outage
- Real-time clock automatically adjusts for daylight savings time
- Precise temperature control of +/-1° F for consistent comfort
- Includes change reminders for filters and low batteries
- Armchair programming allows user to program the thermostat from his or her sofa or chair
