

Prod No. 4220

High Potency
Calcium Supplement

Calcium 600

Supports Bone Health*
USP

COMPARE AND SAVE

60 TABLETS

Bone health can be dependent on many factors including heredity, diet, exercise and lifestyle. Calcium is the primary mineral responsible for strong bones. The body also uses Calcium for proper muscle contraction and nerve function - and obtains this Calcium mainly from the bones.* Because the body cannot produce Calcium, a balanced diet, regular exercise, healthy lifestyle choices and adequate intake of Calcium can play a role in maintaining optimal bone health.*

In addition to helping maintain healthy bones in adults, Calcium plays a role in muscle contractions and nerve impulses.*

DIRECTIONS: For adults, take one (1) or two (2) tablets daily, preferably with a meal.

DISSOLUTION TESTED: The Calcium in this product dissolves within 30 minutes per official U.S.P. standards.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
