# High Potency Calcium 600+ Vitamin D with Soy Isoflavones

Nutritional Support During Menopausal Years\*\*

Calcium, Vitamin D and Soy Isoflavone Supplement

COMPARE AND SAVE

## 60 TABLETS

Calcium and Vitamin D help maintain healthy bones.\*\* Bone health can be dependent on many factors including heredity, diet, exercise and lifestyle. Calcium is the primary mineral responsible for strong bones. The body also uses calcium for proper muscle contraction and nerve function - and obtains this calcium mainly from the bones.\*\* Because the body cannot produce calcium, a balanced diet, regular exercise, healthy lifestyle choices and adequate intakes of calcium and Vitamin D can play a role in maintaining optimal bone health.\*\*

We've also included soy isoflavones in this formulation for its many diverse health benefits for women. These naturally occurring phytonutrients also may contribute to bone health by helping to support calcium metabolism and storage. These naturally occurring isoflavones also may provide nutritional support to women during menopausal years.\*\*

**DIRECTIONS:** For adults, take one (1) or two (2) tablets daily, preferably with a meal.
